

Daniyal Bukhari

Software Engineer

daniyalbukhari6@gmail.com | +49 173 1614951 | Mainz, Germany | LinkedIn | GitHub | Portfolio

EXPERIENCE

- | | | |
|---------------------|--|-------------------|
| Mar 2026 – Present | Dudaev Systems UG  , Software Engineer | Berlin, Germany |
| | <ul style="list-style-type: none">Built backend services and REST APIs with Python and FastAPI for VylexAI, a real-time analytics platform tracking contributor, network, and investor metricsEngineered async PostgreSQL integrations and scheduled analytics pipelines that aggregate and serve live metrics to the application layerDeveloped interactive dashboards and reporting views in Next.js and TypeScript surfacing key indicators for technical and business stakeholdersSet up the delivery pipeline with Docker, GitHub Actions CI, and an integration test suite running against containerised PostgreSQL | |
| Dec 2025 – Present | OrganizeAI  , Founder | Remote, Germany |
| | <ul style="list-style-type: none">Founded an AI-native collaboration workspace combining team chat, notes, and task management, and defined its scope, feature set, and pricing tiersLed delivery with a small development team and specified the AI capabilities, including conversation summaries, context-aware answers, and voice-driven actionsTook the product from concept to public launch on Next.js, TypeScript, and Supabase | |
| Aug 2021 – Jul 2022 | Techflames  , AI / ML Analyst | Karachi, Pakistan |
| | <ul style="list-style-type: none">Collected, cleaned, and preprocessed datasets with Python and SQL, and performed exploratory analysis and feature engineering to improve model input qualitySupported development, training, and evaluation of machine learning models for predictive tasks, and reported findings to non-technical stakeholders | |

TECHNICAL SKILLS

Programming Languages: Python, SQL, TypeScript/JavaScript, Java

Backend & Data: FastAPI, SQLAlchemy (async), PostgreSQL, Alembic, REST APIs, APScheduler, Pandas, NumPy, ETL Pipelines

Frontend: Next.js, React, HTML/CSS

DevOps & Tooling: Docker, GitHub Actions CI/CD, pytest, Git, Linux, Pydantic, ruff/mypy

AI & Analytics: scikit-learn, Deep Learning, CNNs, OpenCV, Power BI, Tableau, KPI Reporting, A/B Testing

Methods: Requirements Engineering, Formal Methods, SAT Solving, Model-Driven Engineering, Agile/Scrum

EDUCATION

- | | | |
|---------------------|--|-----------------|
| Oct 2022 – Aug 2026 | M.Sc. Computer Science , Bingen University of Applied Sciences | Bingen, Germany |
| | <ul style="list-style-type: none">Master's thesis graded 1.0, the highest grade on the German scale. Developed an automated, SAT-based approach for analysing systems whose participating actors change at runtime, replacing a previously manual validation step, and built a working prototype validated on a hospital emergency-response case studySpecializations: Database Systems, Data Mining, Artificial Intelligence, System Analysis | |

PROJECTS

- AI-Based Human Emotion Recognition** — CNN computer-vision model for real-time facial emotion detection, built with OpenCV and trained on labelled datasets
- Customer Churn Analysis** — predictive models in Python identifying at-risk customers, feeding retention strategy
- Sales Performance Dashboard** — automated SQL extraction and transformation feeding dashboards that surface revenue gaps

CERTIFICATES & LANGUAGES

Certificates: Machine Learning Specialization (Coursera) · Diploma in Data Analytics with Python (Alison) · PIAIC AI Program · Agile Scrum Master (Yale)

Languages: English — Fluent · German — B1
